

Mobile CCTV Unit

Welcome to Cyclops II - Our New Mobile CCTV Unit

The Mobile CCTV Unit is a joint venture between Training for Security Limited and Security In Action Guards Ltd. It became apparent that many customers were interested in various facilities that a Mobile CCTV Unit can offer so Training for Security Limited and Security in Action Guards Limited joined forces and designed and developed Cyclops II.

The vehicle is fully equipped with fixed and PTZ (Pan Tilt Zoom) cameras, ANPR, 3 Man Control Room, Video Recording Equipment, PA System, GPS Vehicle Tracking and Remote Monitoring, making it the ideal solution for Event Control or as a Mobile Command Unit.

Other uses for the Mobile CCTV Unit include:

- Crime and ASBO hot-spots
- Sporting Events
- Public Events
- Short Term Site Security
- ANPR (Automatic Number Plate Recognition)
- Fly Tipping Monitoring and Deterrence
- CCTV Training at your premises

Hiring the Mobile CCTV Unit

The Mobile CCTV Unit is available for hire with a Driver/Operator and up to 2 additional Operators. Some of the common uses are:

CCTV Surveillance

The vehicle can be hired for Surveillance purposes with one of our Operatives controlling the equipment and either with a

member of your staff present, without a member of your staff or with the option of monitoring the area remotely.

Events and Festivals

The Unit can be used as a Control Room and as an Incident Monitoring Unit. Festival Organisers will have the opportunity to be based in the unit or they can monitor areas that are not covered by existing CCTV Systems remotely.

Football Matches

The unit can be used to monitor supporters attending matches and also to spot any supporters that are intending to cause trouble. It can also be used to identify any behaviour that will not normally be immediately detected. Spotters from the Police will also be able to identify known trouble makers in advance.

Anti Social Behaviour

The Unit can be deployed at short notice anywhere there is not any CCTV systems available. It can be used as a stand alone unit or it can be monitored from an external Control Room allowing the Police/Local Authority to make instant real time decisions that would normally be impossible.

CCTV Training

If you are a Training Provider and you do not have the facilities to carry out Module 3 of the CCTV (PSS) course (Practical Assessment) we will be able to come to your location with the Unit to conduct this module in a Real Life CCTV Control Room environment.
